

## Scrip Program

What is it?

Scrip is a program that has been around a long time and is very well established in other area schools. It is a great way to raise money because there is NO SELLING. That's right, no selling. All you do is buy gift cards first then go shopping with them and make your regular purchases with that card that you would make anyway.

Scrip means "substitute money". You purchase scrip cards which are prepaid cards that are used just like cash. You can make everyday purchases for things like food, gas, and other essentials. With every prepaid card purchase, we earn money for our project.

Scrip works like this: \*You purchase a card from a list of businesses. \*You decide the amount of money you want the card for. \*You send in money for that dollar amount (full face value). \*OFES purchases the card from Great Lakes Scrip Center and Green Bay Area Scrip at a discounted price. \*The cards are sent to OFES. \*You pick up your full face value cards at school then go shopping yourself or give as a gift. \*The discount is the amount OFES makes in profit. (example: If you purchase a Kwik Trip \$100 card with a 5% profit (discount), OFES gets \$5.00 in profit towards our project).
